

**TOXIC CHEMICALS IN
FRAGRANCED LAUNDRY PRODUCTS
AND HEALTH EFFECTS**

Principal Investigator: Anne C. Steinemann, Professor, Civil and Environmental Engineering, and Public Affairs, University of Washington. Chemicals identified by gas chromatography/mass spectrometry (GC/MS) headspace analysis. Health and regulatory information obtained from databases compiled in Scorecard. Note that fragranced consumer products are not required to disclose all chemicals, not even ones classified as toxic or hazardous under federal laws. None of these chemicals were listed on any product label, and only one was listed on any material safety data sheet.
